ABOUT US

Engineering Better Vertical Mobility.

A T Elevator delivers safe, reliable lifts and dependable after-sales service. With a skilled team and hands-on site experience, we handle every job from survey to handover.

We supply, install, service and modernise passenger, home, glass, hydraulic and parking elevators. Our focus on quality, reliability and safety builds the trust of building owners and end-users alike, and our AMC and after-sales team keeps every lift running smoothly.

A T Elevator believes in serving its customers and the local community with honest work and quick support.

> **“Right lift for every building, installed with care and maintained with commitment.”**
>
> THE A T ELEVATOR PROMISE

WHAT SETS OUR ELEVATORS APART

Exceptional designs

Versatility and a smooth user experience are the hallmark of A T Elevator design. Our range is created to suit diverse buildings with a sense of contemporary elegance.

High speed & large capacity

Solutions for busy buildings, including options for new and existing sites where a conventional lift pit is difficult to provide.

Machine room-less elevators

Space and energy-efficient designs that need no separate machine room, giving greater design freedom and more usable space.

Home elevators

Elevator solutions for small spaces within private houses, with the same trusted quality and performance.

WHAT WE DO

New Installation

Site survey, planning, supply, installation and commissioning.

Maintenance (AMC)

Preventive maintenance, inspections and breakdown support.

Modernisation

Upgrade drives, controllers and door systems.

Repair & Spares

Troubleshooting, repair and spare parts support.

TYPES OF ELEVATOR

Explore Our Elevator Solutions.

A wide range of designs for homes, offices, hospitals, malls and industry.

RESIDENTIAL · COMMERCIAL

Passenger Elevator

Smooth, dependable everyday lifts for apartments, offices, hospitals and commercial buildings.

SHOWROOMS · MALLS

Passenger Glass Elevator

Glass-panelled cabin that keeps spaces open and bright and adds a premium look.

STATEMENT DESIGN

Capsule Elevator

Rounded, panoramic cabin designed to be the centrepiece of a lobby or atrium.

PRIVATE HOMES

Home Elevator

Compact lifts for small spaces in private houses, with the same trusted quality.

GOODS · INDUSTRIAL

Hydraulic Platform

Sturdy platform lift for moving goods and materials between floors.

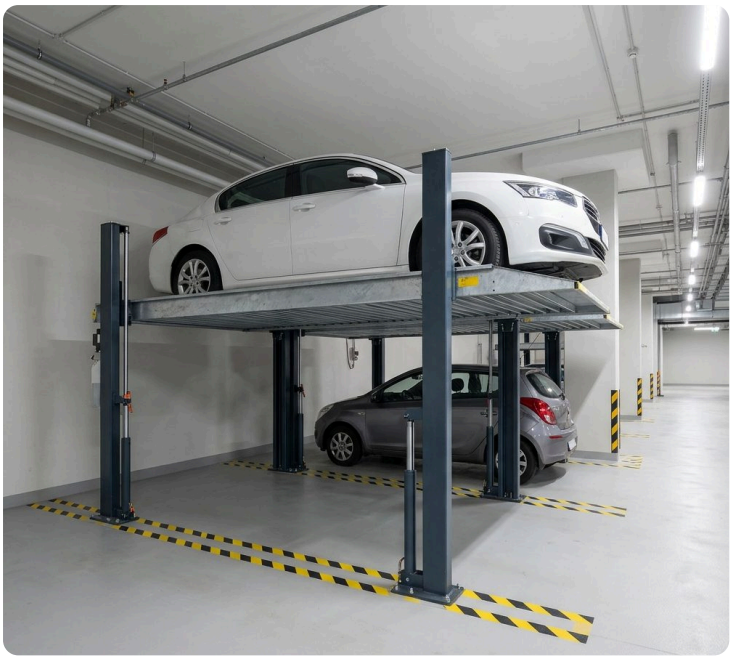

SPACE-SAVING

Cantilever Elevator System

Side-mounted arrangement for shafts where a conventional layout does not fit.

PARKING ELEVATOR

Car Stack / Parking Elevator

Park more vehicles in the same footprint with a sturdy car stack lift.

- Residential area parking
- Commercial building parking
- Office parking

MACHINES & TECHNOLOGY

Reliable Technology. Smooth Performance.

Geared Machine

Strong, time-tested and cost-effective for low and mid-rise buildings.

Gearless Machine

Quieter, smoother and energy-efficient, suitable for MRL and higher-speed applications.

Machine Room-Less (MRL)

The machine fits inside the shaft, so no separate machine room is needed. More usable space and greater design freedom.

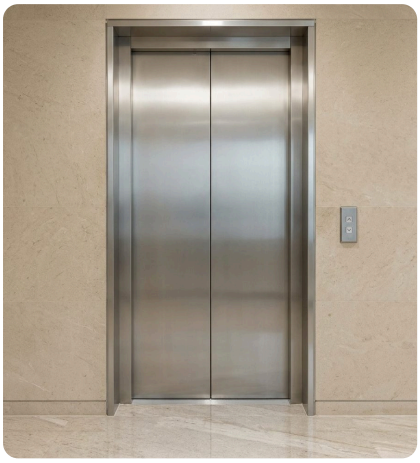

Choosing the right drive

Building height, traffic and available space decide the best machine. We recommend the right option during the site survey.

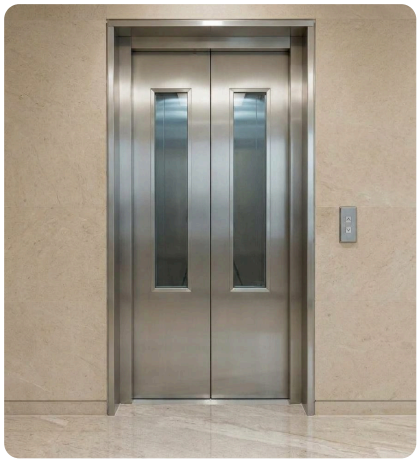

ELEVATOR DOOR TYPES

Designed Around Your Building.

Nine landing door options, automatic and manual.

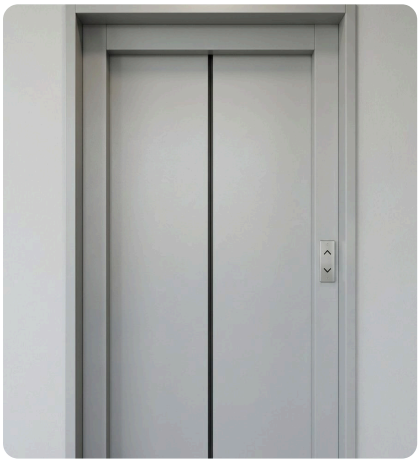

AUTOMATIC
Stainless Steel Door

Standard Steel Paint Finish

SHAFT SIZES

Indicative Shaft Sizes

Passengers	Load kg	Hoistway mm	Opening width mm	Machine room mm	Pit depth mm	Overhead mm
5	304	1500 × 1550	650	1600 × 3500	1500	4200
6	408	1600 × 1525	700	1600 × 3500	1500	4200
6	408	1800 × 1550	800	1600 × 3500	1600	4500
8	544	1750 × 1800	700	1800 × 3500	1600	4500
8	544	1900 × 1800	800	1800 × 3500	1600	4500
10	680	1900 × 2000	900	1800 × 3500	1600	4700
10	680	1900 × 1850	900	1800 × 3500	1600	4700
13	884	1700 × 2000	900	2000 × 3500	1600	4800
15	1020	1900 × 3000	1000	2000 × 3500	1600	4800
20	1360	2000 × 3000	1000	2000 × 3500	1700	4800

ⓘ Indicative values for planning only. Car size, speed and final dimensions are confirmed after a site survey.

SAFETY FEATURES

Safety Is Not Optional. It's Our Priority.

Safety features available across the A T Elevator range. The exact list depends on the model and configuration you choose and is confirmed in your quotation.

Infrared Light Curtain
Full-height crossing light beams detect the smallest obstruction in the door path and stop the doors from closing.

Overload Sensor
Audio-visual indication on overload; doors stay open until the excess load is removed.

Slot-less Door Sills
Groove-less stainless steel sills match the car and leave no slots for dust to collect and obstruct the doors.

Car Emergency Light & Fan
Switches automatically to battery backup on power failure; the fan keeps running for at least 20 minutes.

Emergency Alarm & Push-to-Talk
Self-charging, battery-backed alarm and intercom link to the lobby during an emergency or power failure.

Emergency Rescue Button
On power failure, passengers can use the emergency rescue button on the car panel.

Over-travel Protection
Power to the controller and motor is cut and the brake applied if the car moves beyond the top or bottom floor.

Overspeed Governor
If the car exceeds rated speed downward, the governor trips the safety gear onto the guide rails and stops the car.

PU Buffers
Long-lasting, weather-resistant polyurethane buffers for dependable protection at the pit.

Car Fan Auto-Sleep
The car fan switches off automatically when the lift is idle, saving energy.

Voice Announcer with Music
Announces next floor, direction and door status with a natural electronic voice.

V3F Drive & Door Operator
Microprocessor-based variable voltage, variable frequency drive with encoder feedback for faster, smoother door operation and shorter waiting time.

AMC & AFTER-SALES

Your Elevator Deserves Long-Term Care.

- Preventive maintenance visits
- Breakdown call attendance
- Cleaning and lubrication
- Safety device inspection
- Spare parts support
- Service reports

	Comprehensive	Non-Comprehensive
Maintenance visits	✓	✓
Breakdown attendance	✓	✓
Covered spare parts	Included	Billed when used
Yearly cost	Predictable	Lower contract value

Exact inclusions and pricing are shared after inspecting your elevator.
